SAD RESULTS
Traced to Overworked Minds and Bodies.
SUICIDES, NERVOUS PROSTRATION, PARALYSIS.
Heart Diseases and Sudden Deaths.

One after another of the great men of the nation are falling and most of them in middle life all victims to overwork Can we afford to lose such men? Those men died of nervous prostration in the mid day of their usefulness, and in the last year how many business men and women have quietly fallen out of the ranks either into untimely graves or to worse fate The business men of the nation are killing themselves by overwork of mind, at not of body and we call it nervous prostration The middle class is suffering in the same way Overwork, the pressure of the times, worry fret and anxiety are rendering us a weak and suffering generation No man would commit suicide if his nervous system was in a state of perfect health It is inevitably the result of nervousness in some form or other Now, is it not time that we, as a people should seriously examine into this matter, and seek a remedy, if one can be found? The nervous system must be sustained and built up in proportion to its waste and disintegration or we must suffer The facts prove that this waste is not supplied by our ordinary diet and living The refined manner of living now does not give to us in our food enough of nerve food, or crouch of diet which goes to make nerve matter, to meet the demand made upon the nervous system, and the result is nervous prostration paralysis apoplexy dyspepsia neuralgia, heart disease and premature death We all know that these are fearful and startling evidences of the unfrequency of a remedy known and at present within the reach of all, but we are constantly by the testimony of many thousands in this and all other countries would be improved by taking one of these pills after breakfast and dinner for a while People that want a clear complexion and smooth skin, free of disease must keep their nervous system in a healthy state Domestic care and business anxiety often make quite a serious inroads upon the nervous system as the higher order of mental work, and thousands of people are dying out miserable existence, suffering from nervousness and lack and nervous headache that could be perfectly cured by any living themselves if that remedy is certainly worth a trial in every case The claims of this preparation are recognized by the profession, it has gained to any and largely used and recommended by them And why should it not be so? It is not a patent medicine It is the result of my own experience in the practice of medicine As to my professional standing I will let the following letter from Prof Samuel Lbows, speak for itself
Respectfully
DR C W BENSON

BALTIMORE, Sept 15 1869

The Portland Argus says A case of brutal conduct of a husband towards his wife is reported from Morrill's Corner, which if true and there appears to be no reason to doubt it, should be at once investigated The man is earning good wages His wife is dying from consumption and the inhuman husband refuses to furnish food or other comforts The poor woman was found by neighbors lying on an old bed with scarcely any covering, and in a horrible unfit to live in They purchased her a good bed and have carried her in many dishes but the man's mother who lives near takes them away from the poor sick woman and carries them to her own home The woman's mother was here for a time attending her daughter but other duties called her away and she was obliged to go home The man would give her no money to pay her fare and the neighbors contributed enough she started for home, but has not yet arrived there She is partially paralyzed If the person does not immediately take proper care of his wife and children he name will be published

WE DON'T INTEND TO BE CHEATED.

The moment that the Democratic-Greenback fuglers became convinced that the Republicans had carried both branches of the Legislature, they at once began to boast that a fusion Governor and Council would have the counting of the votes, and to threaten that they would yet cheat us out of the results of the election. Among other hints to that effect, the *Commercial* last night printed the following:

It is reported that the Kittery Navy Yard was packed with voters from New Hampshire to carry the election in York county. This result was accomplished on the "face of the returns" but if an examination by the Governor and Council shows that a majority of the legal votes were thrown for the Opposition candidates, *who is to complain if they* act in accordance with the facts thus found?

The above is nothing more nor less than an advertisement of the disposition to cheat and a threat that Garcelon and his unscrupulous associates in the Council will seek every pretext for cheating. The folly of this outcry about Kittery, which is simply a reiteration of the campaign charge that has been worn threadbare in past years, is shown by the record of the votes in that place, which stood as follows for Governor the past two years:

	Repub.	Greenb'k.	Dem.
1878,	424	188	21
1879,	480	187	24

In 1876 the Republican vote was 435 against 207; in 1872 for Governor it was 482 against 151 and in 1872 for President it was 524 to 147. The Republican majority in 1878 was 215 and this year it is only increased to 269, showing a smaller ratio of gain than many other towns. But the absurdity of this talk about Kittery is most plainly shown by the fact that if the entire vote of that place were thrown out it would not defeat the Republican Senators who have respectively 444,519 and 526 majority.

These threats are merely thrown out to prepare the public mind for cheating in any way that opportunity may afford; but why Gov. Garcelon should feel disposed to countenance any fraud for the benefit of the political crowd that have treated him with such contempt at the polls, does not readily appear. It will be well, however, for all concerned to understand that the Republicans of Maine do not intend to be cheated out of the results of the election, and that any officials who try any such game will find it very uncomfortable business.

The Republicans have constitutionally chosen a majority of both branches of the Legislature, which gives them the choice of the next Governor, and they will duly elect Daniel F. Davis as Chief Magistrate of Maine.

A DEMOCRATIC CONFESSION.

[From the N. Y. Sun, red-hot Democrat.]

If Henry Gully, now on trial in Mississippi, and his associates in the murder of the Chisolm family, escape justice through the potency of political sympathy, the effect on the next Presidential election, in favor of the Republican ticket, will not be small.

One of the most powerful influences operating to keep the Republican party in power, consists in the impression they succeed in keeping up, that the lives and property of Republicans in the old slave States would not be secure under a Democratic administration. The escape of Democratic murderers, where the evidence against them seems conclusive, and where the victims were Republicans, goes far to sustain this belief.

No Republican orator can speak half so eloquently for his cause as the gaping wounds of the murdered Chisolms, unless they are avenged.

INDORSING POLITICAL MURDER.

The *Yazoo (Miss.) Herald* publishes a list of thirty-three "able and fearless" Democratic newspapers of Mississippi, all of which, it says, vindicate "the action of the honest people of Yazoo" in causing the political assassination of Dixon. The *Herald* adds; "To be indorsed by such an array of excellent journals as compose this list is reassuring, and we need not tell them how grateful our people feel toward them for giving their side of the question a favorable hearing and vindicating their character from the aspersions of their enemies."

"In the House," says the correspondent, "the Republicans will gain • • 21 to all go that the Republican majority in the House will be 25."

This estimate does look remarkably fine upon paper, and as this "most intelligent and careful politician" will not have the opportunity of seeing it confirmed by the result of the balloting, we suggest that he cut out this article and paste it in his hat. —*Commercial, Aug. 21.*

The official returns show that the Republicans have *gained 25* members and have *30* majority, with one district in doubt. The *Commercial* man can paste that in his hat.

The grand Republican victory won at the polls last Monday was due more to the personal effort—the bone and brain labor—of Hon. James G. Blaine than to that of any man in the State. As chairman of the Central Committee, he had entire charge of the campaign, and besides securing and assigning the army of Republican speakers, reading and answering scores and hundreds of letters and telegrams daily, he has made many able speeches, directed the canvass, looked closely after the figures, and achieved the most important triumph ever won by the Republicans of Maine. There are but few men in the country who could have conducted a campaign with the ability and success that Senator Blaine has managed ours this summer, and the Republicans of Maine owe him their everlasting gratitude for having carried them triumphantly through the great struggle and rescued the State from the hands of the opposition.—*Biddeford Union and Journal.*

At the celebration of the birth of the Republican Party, that was held at Worcester, Mass., Monday evening, the Boston *Journal* says Hon. Lewis Barker, of this city, was called out and "made one of his characteristic speeches, which aroused the audience to the highest degree of enthusiasm."

An examination of the vouchers showing the cost of General Ewing's investigation in the Forty-fourth Congress to prove that resumption could not possibly take place at the time fixed by law, reveals the fact that this inquiry cost the people six thousand dollars.

A report from New York in regard to the shipments of grain by the regular steamers of Saturday shows that nine of them took out 150,000 bushels of grain, 19,600 sacks and 4000 barrels of flour.

THE COLORED EXODUS.

THE REFUGEES IN KANSAS.

Statement of Governor St. John.

Governor St. John of Kansas writes to a friend in the East as follows: "I desire to assure you that not only have the refugees not starved, but none have been permitted to suffer for the want of bread, and instead of their loafing around the towns and cities of our State, that, with a very few exceptions, employment was readily obtained for them, and they are now self-supporting, doing well and are happy, and neither love nor money would induce them to return to the South, to be again subjected to the cruel wrongs and outrages that have been heaped upon them for years past. Of the six or seven thousand that have come to Kansas there are not to-day over seventy-five receiving aid from charitable sources.

"We have found these refugees to be sober and industrious, and whenever afforded anything like a reasonably fair opportunity, not only take care of themselves, but do more. They lay by their surplus means with a view to securing for themselves a home. It may be said to the credit of this people that I have yet to see or hear of a drunken refugee.

NO UNDUE INFLUENCE BROUGHT TO BEAR ON THE BLACKS BY KANSAS PEOPLE.

"The newspaper or individual who asserts that Kansas has directly or indirectly been instrumental in originating this movement on the part of the blacks, simply states that which is absolutely false. I have heard many reports about flaming chromos being circulated by designing parties through the Southern States with a view to inducing the blacks to migrate. But I have yet to see one of these chromos, and never expect to see one, as I offered $5 to any one who would send me one of these chromos alleged to have been so freely circulated among the negroes of the South, and of all the numbers that have come here with whom I have talked, not a single colored man or woman has ever seen one of these chromos, nor have they ever seen or heard of any emigrant agent or other person traveling through the country endeavoring to induce them to come to Kansas. But, on the other hand, they say that this movement originated among themselves; that they have had it in contemplation for years, but have deferred it from year to year with the hope that they could remain in the South, as they prefer that country to this, if only permitted to stay there. But instead of their prospects growing brighter the heel of tyranny from year to year was ground down harder upon them, and at last, when robbed of everything that they possessed, left penniless and breadless and almost naked, they were forced, in order to protect themselves and their children, to flee to the land where they could have a hope of being free.

HOW THE BLACKS WERE SWINDLED AND ABUSED AT HOME.

"These poor people have been charged 25 cents per pound for the bacon they ate, which was worth 7 cents; 7 cents per pound for the flour that they consumed, worth 2½ cents; 40 cents per yard for cottonade, worth but 12 cents; $10 per acre annual rent for land, the fee simple title to which would be worth but little more, if any, than that sum. They have been deprived of the right to vote according to the dictates of their conscience; their children have been shut out from the schools, their homes have been ruthlessly invaded; they have had no protection to life, liberty or property in the courts. This state of affairs at last culminated in forcing them to take this last desperate step with the hope of bettering their condition. It is the fault of the white rebels of the South that these people are leaving that land.

"You may at all times rest assured that Kansas, as a State, will never do anything that will cause you or any of its true friends to feel ashamed of it."

VARIOUS THINGS.

The San Francisco papers report that Charles De Young, the shooter of Kalloch, has left that city for a sojourn in the East.

Will somebody point out the "substantial victory" which the Democratic papers say the Democrats have won in Maine. It is not apparent in the returns.—*Chicago Inter-Ocean.*

There are in New York over 300 Chinese laundries, 50 groceries, 20 tobacco stores, 10 drug stores, 6 restaurants, and over 75 in domestic service.

And now because she cannot very well help herself Spain is talking about setting the African slaves of Cuba free. It is proposed, however, to tack on an amendment, that on condition of the slaves getting their freedom July 1, 1880, they shall give seven years' obligatory service with wages. The negroes are reported as running away in large numbers from the Cuban plantations.

The Atlanta papers report that a strange and fatal disease of the malarial fever type is prevalent in the western part of Georgia. Out of fifty-eight persons attacked within three weeks, only three have recovered. The disease has some characteristics of typhoid fever, but is more rapid and fatal. The tongue swells until the mouth cannot be closed, the victim chokes and blood breaks from the ears, eyes and nostrils. The body is covered with large black spots as death approaches. The disease is spreading without appearing to be contagious, and there appears to be no way to check it.

Small a country as Siam is, it has two Kings, the First King, as he is styled, being the actual monarch. The Second King, who receives about one-third of the revenue, and has an army of some 2,500 men, appears to occupy the position of first councilor, and is always consulted by the First King before any important step in the administration of affairs has been taken. The Kings are assisted in governing by a Cabinet and Council. The Siamese annals begin some 500 years before the Christian era; but nothing autuentic is known of the history of the country until 1350, in which year Ayuthia, the former capital, was founded.

The New York *Herald* prints a two column letter from Tokio reporting General Grant's interview with the Emperor of Japan. The latter departed from the traditional custom by visiting Grant. Referring to a nation's right to control its commerce, the General said it made his blood boil to see the way European powers attempt to degrade Asiatic nations. He said there was nothing which Japan should avoid more strenuously than incurring debts with European nations. The experience of Egypt was a lesson. He discussed the Loochoo question earnestly, and urged sacrifices on both sides, and the settlement of the question without consultation with foreign powers. He also expressed great pleasure at the advance of education in Japan. The correspondent says General Grant is hopeful of a peaceful solution of the Loochoo question.

Cuticura
From the Hon. WM. TAYLOR, State Senator of Massachusetts.
Messrs. WEEKS & POTTER:—Gentlemen,—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for weeks at a time. My disease at last was called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several hair humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out worse than ever. When I came back to Boston, I was told by many friends that Dr ——— (whose reputation for the cure of those diseases was of the highest order) could cure me. I went on to the city, and he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——— of East Boston, and he, as well as every proper, skillful one, had no purpose. They did me no good, their remedies were so ineffectual that at no time did I feel that a cure would result from them.
I have swallowed five hundred arsenic pills, 5 20 grains, and taken bottle after bottle of internal remedies, besides all the external applications I have used, but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.
Now, about three months ago Mr. Mehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and recounted wonderful results if I would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, and great quantities had come out and greatly intensified my sufferings for about two weeks. But I did not misdirect, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores.
I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at the present moment, after three months' use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounce my case the most remarkable on record. I have been solicited with my success that I have stopped men on the street who were afflicted, and told them to get CUTICURA and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Here followed speeches by Dr. Nathaniel Butler, Representative-elect, and Howard Owen of Augusta, which were received with great applause. Hundreds were turned away from the door unable to gain admittance.

MASSCHUSETTS REPUBLICANS.

State Convention at Worcester.

HON. JOHN D. LONG NOMINATED.

The Opening Proceedings.

WORCESTER, Sept. 16. The Republican State Convention at 11:15 organized with Eben F. Stone as temporary chairman and Edward H. Haskell as temporary Secretary. Mr. Stone briefly addressed the convention. He said that he hoped the proceedings would show that the convention was worthy of belonging to the great Republican party, and exhorted it to work in a spirit of devotion and harmony until victory is won. The various committees were then appointed.

Permanent Organization.

The convention was permanently organized by electing Hon. Alex. H. Bullock President. Mr. Bullock made a long speech, reviewing the history and objects of the Republican party, approving Hayes' conciliatory policy, and taking a stalwart stand on the Southern question.

The address of Gov. Bullock occupied twenty-five minutes and was frequently applauded. He was followed by William Hoar in a brief but encouraging speech. An informal ballot was then taken.

The Informal Ballot for Governor.

At 2.35 Mr. Whitcomb, chairman of the committee on ballots, made the following report on the informal ballot for Governor

Whole number of votes,	1075
Necessary for a choice,	538
Chas. Devens had	1
Henry L. Pierce,	505
John D. Long,	569

Hon Harvey Jewell, of Boston, upon the announcement of the result of the ballot stated that he believed the ballot was a fair one. What was wanted in the coming campaign was unity and harmony of action.

Long's Nomination Enthusiastically Received.

He closed by moving that the nomination of Long be made unanimous by acclamation. The motion was unanimously adopted amid the greatest enthusiasm Speaker Wade, of Newton, moved that the same committee be appointed to receive, sort and count votes for a candidate for Lieutenant-Governor, carried.

Completion of the Ticket.

Mr Dickinson nominated for that position Hon. Byron Weston, of Dalton, thus completing as he believed a union of the eastern and western sections of the State

Mr. Carrol D. Wright, of Reading, presented the name of Hon. Joseph A. Harwood, of Middleton. At 2.40 the convention commenced to ballot for Lieutenant Governor.

On motion of Mr. Whittemore, of Sandwich, Hon. George Marston, of New Bedford was nominated for Attorney General

On motion of Col Hopkins, of Worcester, Hon. C. R. Ladd, of Springfield, was nominated for Auditor.

On motion of Hon. F. S. Hobart, Hon. Henry L Pierce was nominated by acclamation as candidate for Secretary of State.

On motion of Charles S Stott, of Lowell, Hon Charles Endicott, of Canton, was nominated as Treasurer and Receiver General.

The ballot for Lieutenant Governor resulted as follows Whole number of votes, 1032, B. Weston, of Dalton, had 658, Joseph A. Harwood, of Littleton 181, Henry L. Pierce had 188, scattering, 5.

The Platform.

Hon W. W. Crapo then reported the following platform

We affirm that the United States is a Nation, that while local self government in all matters which belong to States must be fully recognized, the national government should secure to its citizens complete liberty and exact equality in the exercise of their civil and political rights.

We demand that elections shall be free from all interference by unlawful bodies of armed men, also from interference of national and state military forces, except when employed as part of the posse comitatus.

We denounce that fierce partisan intolerance which prevents a free ballot and denies the freedom of political opinion and action.

We deprecate the course of members of the Democratic party who have undertaken to revive sectional animosities for the purpose of securing political ascendency in the Southern States, and who have revived memories of sectional strife by the defiant declaration of a purpose to repeal the laws made necessary by war and enacted to secure the results of the war, and we condemn their attempts to secure by legislation what was not accomplished by arms.

The pledges of the Republican party to maintain the national honor and to preserve the national credit have been redeemed in the face of bitter opposition by the prompt resumption of specie payments and reduction of the public debt.

We congratulate our fellow citizens upon the restoration of confidence and revival of business which followed the management of public affairs under Republican administrations.

We are opposed to repudiation in all its terms and insist that the circulation of the country shall be maintained at par with gold.

We applaud the course of the President in maintaining the Constitutional prerogatives of the Executive, and recognize the earnestness and sincerity with which he has labored to restore harmony and good feeling to all sections of the country.

While the Republican party is practically united in demanding the suppression of intemperance by the wisest legislation it recognizes honest differences of opinion among its members as to which form of law will best accomplish that end, and the question is referred to the people to be settled in the Legislature.

We advise the establishment of a National bureau of statistics of labor, and again demand that our system of taxation be so modified that each person shall contribute only in proportion to what he is worth.

The time has come when the Executive officers of the Commonwealth and members of the Legislature should be elected for a longer term than one year, and we favor biennial elections.

The administration of the State government during the past year has been able, just and efficient. In continuation of its work the Republican party will insist on judicious, but not penurious economy in the State administration, on a discontinuance of the State tax and no further increase of the State indebtedness.

We commend to the voters of the Commonwealth the nominees of this convention.

The resolutions were unanimously adopted, and at 3:55 the convention adjourned.

Press Comments on the Convention.

BOSTON, Sept. 16. The Journal commends the platform as clearly defining the Republican position.

The Herald thinks the Republicans made a mistake in the gubernatorial nomination which will result in the narrowing of the party in the campaign and make the work of defeating Butler heavier than it might have been.

The Advertiser says there is no longer a division in the Republican party in Massachusetts. From this hour all disappointments are to be forgotten and all regrets buried.

Brooks, was attacked by seven of the crew and so badly beaten with belaying pins that he died two days after. Upon reaching the quarantine station to-day, the police boat took off the men engaged in the murder. The crew state that Brooks drew a revolver and threatened them and had previously ill-treated them. The prisoners will be taken before the United States Commissioner. Capt. Adams reports that the boatswain was blown off the spanker boom and lost on the night of the 22d.

MASSACHUSETTS

Ben. Butler and the Democrats.

WORCESTER, Sept. 16. The Butler Democrats hold their State Convention here to-morrow. A strong effort will be made to keep Butler and the platform, which will be thoroughly Democratic and National, separate in order to secure admission of the four delegates to be chosen by the convention to the National Democratic Convention. But few delegates are here and the city is decidedly dull for the night preceding a State Convention.

A PLEASANT OCCASION. An Orono correspondent writes: We had a rare entertainment on the evening of the 11th. Our little townswoman Miss Maggie Chase who has for some years past been studying elocution in New York, assisted by others, gave a benefit for the Congregationalist church of this place. Miss Chase has a wonderfully rich and pathetic voice, and every one was delighted with her recitations in costume.

A FEROCIOUS DOG. Yesterday afternoon as S. R. Prentiss, Esq., was crossing the bridge followed by his bird dog, a white bull-dog rushed out and seized the dog with a grip like that of a vice. A crowd soon assembled at the spot, but before the dogs were separated the bull had bitten the other in a very severe manner. Some of the gentlemen whose attention had been attracted by seeing the crowd, were quite indignant to think that any one should permit such a ferocious beast to roam the streets, and seemed inclined to throw him into the stream, but the beast slunk out of sight.

"PINAFORE." We clip the following concerning the Miniature Pinafore Company, which will make its first appearance here Friday evening, from the Boston *Post*. "Murphy's Miniature Opera 'Pinafore,' which has held the boards for so long a time at the Museum, has won its popularity largely on the merits of the children of which the cast is made up, and it is no exaggeration to state that the little ones render this charming work of Messrs. Gilbert and Sullivan with as much spirit as though they were a company of adults of long stage experience, not only as far as the music is concerned but with regard to the full development of the exquisite humor of the piece."

THE STOCKHOLDERS' EXCURSION. Owing to the very unfavorable condition of the weather yesterday morning, the party that went down river on the steamer City of Bangor, on the first annual excursion of the stockholders, was smaller than it would otherwise have been. It was a very pleasant party, however, and notwithstanding the weather all enjoyed the trip very much. On account of the alarm of fire there was some delay in starting, so that it was about ten o'clock when the boat left the wharf. They touched at Fort Point, both going and coming, and landed at Castine, where they passed an hour, and returned to this city about six o'clock The staunch little steamer seemed to realize that she was bearing the very persons who provided the means by which she was constructed, and behaved in a manner that caused her owners to feel prouder than ever of her.

THE FIRE.

Considerable Property Damaged by Water at A. H. Thaxter & Co.'s Establishment.

A fire got started in A. H. Thaxter & Co.'s flour and grain establishment on Exchange street yesterday morning, but as the department promptly responded to the alarm, the flames were quickly extinguished, although the water did a large amount of damage. The fire must have been ignited by the friction of some of the gearing, as they were discharging a corn vessel and were running at full speed. Mr. George Jefferds, who had just come down stairs, detected a strong smell of smoke and after a vigorous search discovered the fire in the elevator, on the upper floor. He got out the hose in the store, but found that he was unable to do anything with them and gave the alarm. As we have already stated, the department were soon ready for action and putting two streams of water into the building, the fire was drowned out before it had made much headway.

The building contained about twenty thousand bushels of corn, a large part of which will be badly damaged by water, so that the loss will amount to five or six thousand dollars. The adjustor will arrive here to-day and after he has adjusted the loss the corn will be moved and as much of it saved as possible. The following is the amount of insurance on the property:

P. M. Blake's agency—On the building, Royal Insurance Company, $2,500; Queen Insurance Company, $2,500; on stock, Lancashire, $2,000.

J. S. Ricker & Son—Fire Association, $2,000; Newark $1,000

R. Kelleher—Manufacturers' $2,000; Buffalo German $2,500, Rochester German, $2,500.

J. S. Kimball & Son—[illegible], St. Nicholas, $1,000.

S. P. Johnson—La Caisse, $1,000.

Total—$23,000.

FROM WEST WATERVILLE.

Trial of Hon E. Noyes Business Improving—Republican Gains The Universalist Church.

Mr. Editor: The trial of Hon. E. Noyes, of Waterville, of which brief mention was made in your telegraphic columns yesterday, attracted great attention, from the fact that the principals in the case have a wide acquaintance, while the prosecution was the result of work done by one who has acquired a local celebrity as a "shoot-ist" in time past. It is not necessary to give even an abstract of the testimony. The witnesses on whom the prosecution placed the most reliance were the best witnesses for the defence. It was shown that money was paid by Mr. Noyes, but it was for teams employed in getting voters to the polls; this was Mr. N's., own testimony also. It was clear enough that spite, rather than the purity of the ballot box was at the bottom of the case.

The well known cry of the Greenbackers in the last campaign, "hard times," does not apply to our village. The new shop of the D. E. T. Co., is rapidly approaching completion; their new dam is also finished. Lawton & Barker of Norridgewock, are also building a stone dam for A. B. Bates & Son. The job necessitates the stopping of the water for several weeks, and the several companies interested are about constructing a wing to the present coffer dam which will let down sufficient water to run their wheels, while work on the dam will not be retarded.

Last year there was a majority against the Republicans here of sixteen, this year we have a majority of sixty-four, a net gain of eighty, with which we are entirely satisfied.

The Universalist church is all ready for frescoing, the contractors will commence upon that work next Thursday, Messrs. Tukey & Given have done a first class job of plastering upon the building. The stained windows are in place, and as soon as frescoed the church will be ready to receive the carpets and pews.

BANGOR REFORM CLUB.

Annual Report of the Secretary.

To the Officers and Members of the Bangor Reform Club

GENTLEMEN —Owing to the fact that such large additions have been made to the membership of our Club the past year, and that many who have recently joined it are unacquainted with its origin and subsequent doings, it would seem necessary to take a retrospective glance at its history and trace its organization from its birth to the present hour.

Five years ago to-day, ten men, citizens of this place, men who had suffered more or less from the baneful effects of the use, as a beverage, of intoxicating drinks, and who had been brought to a realization of their degradation and danger, resolved, with the help of Almighty God, to abstain forever from buying, selling, or using anything that would intoxicate.

Some six months previous to the organization of this Club, a band of noble women in our city, associated themselves together to fight (with prayer and moral suasion) this demon of intemperance; and many signed the pledge they presented.

A Young Men's Crusade was formed to assist these women, but its existence was of short duration; politics and sectarianism crept in and destroyed it. Quite a number of its members had signed the Women's Temperance Crusade pledge, but did not find that sympathy which they believed was due to earnest efforts in reformation, and which their souls from time to time craved. These ten pioneers above referred to, viz:

Dr. Henry A. Reynolds, Henry Hill, Benj. E. Walker, Jesse L. Randall, Wm. E. S. Rice, Volney B. Cushing, Charles E. Hanscomb, John H. Head, William P Perkins, David Ames, conceived the idea of forming a Club to be composed entirely of men who had suffered from intoxicating beverages, their platform "non-political, non-sectarian;" their mottoes "with malice toward none, with charity for all" and "dare to do right," the organization to be known as the BANGOR REFORM CLUB.

The Club, with this platform and these mottoes, rapidly became a power for good, hundreds enrolling themselves as members; and it seemed for the time being that the throne of King Alcohol in our midst, at least, must crumble and fall, and peace, happiness and prosperity would again flow in upon us and cover our fair land as the waters cover the great deep, but the subtle monster, although stunned by merited blows, gradually recovered himself and at times since, has waged a desperate and relentless battle, and to-day, on this our fifth anniversary, with shame we are compelled to report, that in our beloved city, he reigns supreme, breeding and encouraging that intemperance which consumes its victims, detests life, curses God, and despises Heaven

The great good which our Club had accomplished at home soon became known abroad, and in the cities and towns of this State, as well as most other States, like Clubs have been formed and are working for the Heaven sanctioned cause of reclaiming fallen mankind. Go where you will—East, West, North or South—you will find multitudes wearing the red ribbon and standing shoulder to shoulder in the shining ranks of the redeemed. In our own State it is estimated that we number fully thirty thousand, and in the Union five hundred thousand men. The secret of our success must be plain to all, the sympathy, brotherly love and harmony existing among the members, prompts us to bear with one another's weaknesses and to admire one another's heroism, for "He that ruleth his own spirit is greater than he that taketh a city." In almost every place where a Reform Club is found there also you will find a Woman's Crusade or Ladies' Aid Society. To these ministering angels of good—working with and for us—we are greatly indebted, indeed, without their aid and sympathy we should not be the important and manly organization which the nation to-day proclaims us.

Brothers, in making this report I should be recreant to the duty imposed upon me did I not acknowledge the religious element that has gradually but surely developed itself among our members, men who seldom or never entered the sanctuary of the Lord before they signed the iron-clad pledge have professed faith in Christ and have entered on that journey which I trust shall end only in the Celestial City. Many of them kneeling at the altar or in the flowing waters have been baptized in the name of the Lord Jesus.

Holy is the covenant they have made, and solemn the vows they have uttered. Let not the memory of that hour ever come up to torment, nor those crystal drops that have fallen on the converts brow, be changed to a circlet of fire that shall burn to the brain, but let it be remembered that the inheritance of the saints, the prize, the crown of life, are at the end of the Christian race; and pressing through much affliction they are obtained.

At all our business and public meetings we also reverentially call upon the Giver of all good gifts to assist us in our efforts to live better, nobler lives.

That our endeavors in daring to do right are appreciated, witness the large attendance of the good citizens of Bangor at our Sunday afternoon meetings, held for five years without any vacation, through the heat of Summer and the cold of Winter, through rain storms and snow, not called together certainly to hear oratory nor eloquence, but to listen to men who, having been beguiled by the wine cup from the paths of duty, are now determined to shun forever the tempter. It is human nature to court the approval of our kind when we undertake to accomplish any good deed, and surely we have no cause to complain in this respect. Our friends have stood by us, now let us appreciate what they have done.

The membership of our club at the present time in good standing, is 202 to 61 at last year's report, a gain of 141 members.

Total cash received from all sources is $663 63; total expenditures, $691.92; balance in Treasury, $54.44.

[illegible] our organization no contract has been entered into without sufficient money in the treasury to pay the bill, and to-day there is no institution in the city whose credit stands higher than our own.

It becomes my sad duty to report three deaths since our last annual meeting. Blessed be the memory of those who have gone up on high. Brothers Langley, Willis and Strange have been removed from earth's troubles to that habitation of boundless joys, where the tear drop is never seen and the song is always singing. Blessed are the dead: they live, they remember, they love us yet. Bending from the calm regions of immortal life, they call to us to keep sacred our vows, and in the strength of our Redeemer to press onward in the path of fidelity and duty.

Brothers—I fear that I have already wearied your patience; but before closing let me impress upon you that the cause we plead is the rescuing of millions—rational, immortal as ourselves—the meanest of whose souls is more prized by their Creator than the fabric of the material system. The character of this work will always inspire confidence; and loving hearts and hands will never cease to spread its blessings from shore to shore, from the rising to the setting sun. Great pursuits form great men, and in this cause there is everything that can elevate the genius and ameliorate the heart. Gratitude impels, humanity implores, justice commands, honor invites, and conscience approves the warfare we wage against the gigantic wrong of intemperance, everywhere instigated by hell's ambassadors, like angels commissioned to destroy! We must not become impatient. "As our day is, so shall our strength be." We can fight this Goliath as did the meek and modest David, who trusted not in the sling and stone, but in that God whose soldier he was. Victories are vouchsafed us, then "the wilderness and the solitary place shall be glad for them; and the desert shall rejoice and blossom as the rose."

Respectfully submitted.

C V. CROSSMAN,
Sec'y Bangor Reform Club.

Dr. Josiah Briggs Dear Sir —I feel that I can do myself a favor and you a justice by sending a few words in commendation of your new discovery, Medicated Oxygenated Vapor, and other specifics as prescribed by you. My wife has been troubled with nasal catarrh and much disturbance of the eyes and ears the sense of smell, taste and hearing being nearly extinct. She suffered with constant irritation of the nose and throat, and for at least ten years has been afflicted with bronchitis. She has been continually seeking for aid the past six years, with very poor encouragement, and no visible benefit. Her appetite gradually failed until she could eat but very little and became thin in flesh, weak and nervous I began to think her days were numbered, and despaired of ever seeing her well again Reading the morning paper, she saw your notice of catarrh its origin and cure, she brought it to me and said, I believe this man can cure me. I read it and started for your office at once when you explained the method of using your Medicated Vapor and its direct contact with the affected organs. I was pleased you had made a great discovery I procured the apparatus and medicine with instructions for use and returned home promising to write if satisfied with the effect of your remedies and accordingly I fulfil my engagement. My wife has used your Vapor and other medicines as directed about ten days, she is decidedly very much improved, eats well, sleeps well, and is happier than she has been for ten years We are strong in the belief that she will entirely recover her health by the use of Medicated Oxygenated Vapor and the other medicine which seems to possess rare merit. Thanking you for the benefit thus far obtained by the use of your valuable remedies, we heartily join in sending you these few lines, hoping it may benefit others as well as yourself. Most respectfully yours, SAMUEL W HAVENS

The Influence of Climate.

The influence of climate upon a constitution subjected to a trying change in atmospheric conditions, in water, and in food, is often marked and disastrous Disorders of the bowels and of the liver, frequently terminating fatally, are prone to attack the tourist by land or voyager by sea in unaccustomed latitudes—more particularly those near the equator The best medicinal protection against irregularities of the bowels, stomach and liver, not only from the above, but whatever cause arising, is Hostetter's Stomach Bitters, a medicine in wide and increasing demand in sultry portions of this hemisphere, and also in the tropics. Travelers, emigrants, dwellers and temporary sojourners in malarious districts use it very extensively as a safeguard. eod&w sept17

CATARRH DESCRIBED. Catarrh is an inflammation of the mucous membrane of the nasal cavity commencing a little above and behind the palate extending upwards to the nose and is not confined to the nasal cavities, but in its progress it invades the antrums and air chambers of the head, and sinuses which cover a portion of the face and extend to the lower part of the forehead Some sufferers feel as if their whole face, head and throat were in a state of decomposition so excessive is the discharge of matter, when such quantities is secreted, we cannot wonder at the result. Just consider for a moment the intricate structure of the nasal cavities all of which are lined with the same delicate mucous membrane as the nose and throat, hence the contaminating influence upon any portion affects the whole When the upper part of the respiratory organs becomes involved the larynx the bronchia and consequent ly the lungs share the fate of the progress of this terrible, disgusting and dangerous disease. Of course the victim has tried snuffs and washes without number, but has failed to realize any permanent benefit, because something more is required It is found Dr Josiah Briggs's Medicated Oxygenate Vapor is perfect in principle delightful in effect, absolute in result, in connection with his other remedies which are furnished to the patients with directions for use The most desperate case can be cured even where the sense of smell, taste and hearing are partially or complete ly destroyed Sufferers from Catarrh, Bronchitis, Laryngitis, Consumption or any and all diseases of the throat, lungs and chest will do well to consult Dr Josiah Briggs, at the Bangor House, from 8 A M to 9 P M Charges reasonable. To the Honorable Judge of Probate for the County of Penobscot.

The undersigned, Executor of the Last Will and Testament of Mason Skinner, late of Garland, in said County, deceased, respectfully represents that certain real estate, to wit a parcel of land in said Garland, being a part of lot No 4, in the first range of lots in said town, is a part of the estate of the deceased which was held by said deceased in a mortgage to him from Alonzo F Bachelder, recorded in the Penobscot Registry for deeds, Vol 402, page 70, which mortgage was foreclosed and the foreclosure recorded in same Registry of Foreclosures, Vol F, page 383, that it will be more for the benefit of the parties in interest that said land should be sold by the said executor and the money distributed as in other cases of personal estate, rather than distributed in the manner provided by law for the partition of real estate

Wherefore your petitioner prays that you will order said land to be so sold that the money may be so distributed

ST. NICHOLAS,

Scribner's Illustrated Magazine FOR GIRLS AND BOYS.

AN IDEAL CHILDREN'S MAGAZINE.

Messrs SCRIBNER & Co, in 1873 began the publication of ST NICHOLAS, an Illustrated Magazine for Girls and Boys, with Mrs Mary Mapes Dodge as editor Five years have passed since the first number was issued, and the magazine has won the highest position. It has a monthly circulation of

OVER 50,000 COPIES.

It is published simultaneously in London and New York, and the transatlantic recognition is almost as general and hearty as the American Although the progress of the magazine has been a steady advance, it has not reached its editor's ideas of best, because her ideal continually outruns it, and the magazine as swiftly follows after To day ST NICHOLAS stands

Alone in the World of Books:

The New York *Tribune* has said of it "ST NICHOLAS has reached a higher platform, and commands for its service wider resources in art and letters than any of its predecessors or contemporaries" The London *Literary World* says "There is no magazine for the young that can be said to equal this choice production of Scribner's press"

Good Things for 1878–9.

The arrangements for literary and art contributions for the new volume—the sixth—are complete, drawing from already favorite sources, as well as from promising new ones Mr Frank R Stockton's new serial story for boys,

"A JOLLY FELLOWSHIP,"

Will run through the twelve monthly parts,—beginning with the number for November, 1878, the first of the volume —and will be illustrated by James E Kelly The story is one of travel and adventure in Florida and the Bahamas. For the girls, a continued tale,

"Half a Dozen Housekeepers,"

By Katharine D Smith, with illustrations by Frederick Dielman, begins in the same number, and a fresh serial by Susan Coolidge, entitled "Eyebright," with plenty of pictures, will be commenced early in the volume. There will also be a continued fairy tale called

"Rumpty Dudget's Tower,"

Written by Julian Hawthorne, and illustrated by Alfred Fredericks. About the other familiar features of St Nicholas, the editor preserves a good humored silence, content, perhaps, to let her five volumes already issued, prophesy concerning the sixth, in respect to short stories, pictures, poems, humor, instructive sketches, and the lure and lore of "Jack in the Pulpit," the "Very Little Folks" department, and the "Letter box," and "Riddle-box"

Terms, $3.00 a year, 25 cents a Number.
